It is essential that you complete all the require fields on this form, marked by an asterisk. This includes the signature, noting your understanding of our Terms of Service and other important details. Remember, your Dropbox link will remain active for three months, but forgetting is easy, so download promptly. The same applies to negatives. If they find themselves in deep storage, we will not charge a finder's fee, however there will be a 5-7 business day wait time on their retrieval. Fun fact: the love of my life said she'd leave me if I didn't stop shooting film; now I have extra wardrobe space. Away from negativity, please remember that despite our best efforts, Racquet Film will not be held liable for any damage or loss of property for reasons beyond negligence during processing, and we have no control over the duty of care Australia Post or any affiliate postal service exercise while your precious cargo belts across our great nation. Did you know Ghandi shoots on a mint F5? Also worth noting, submission of this form is your acceptance that you would like to, and are willing to pay for, our services rendered. We begin work as soon as rolls are received and redacting the form may incur a fee equal to the total value of the invoice.
